

Getting Unstuck

Becoming A New Kind of Local
Church For A New Kind of World

October 18, 2023

9:30am - 4pm

THE JOURNEY CHURCH - ALLISON CAMPUS

1539 Salisbury Road
Moncton, NB E1E 4P5

While the realities of the pandemic remain, the God who "makes all things new" is up to something. Amid a Christian landscape of confusion, uncertainty, anxiety, and a lack of clarity on how to move forward in a pandemic world, new movements of the Spirit are springing forth.

Inherited congregations with long histories and ways of doing things are learning to experiment in new ways through a blended ecology approach and moving into an "unstuck" future. Such congregations are discovering that they can start fresh expressions of church that both reach new people and revitalize existing congregations for remissioning.

Matt Lake and J.R. Briggs have employed different approaches in their respective ministries, but both are discovering new life and new opportunities in the churches they have served through becoming a new kind of local church. They will explore the theological underpinnings, the practical tools needed, and the "how to processes" to get your church unstuck and become a new kind of local church for a new day.
